

Pumping Systems

Structural • Mechanical • Electrical • Communications

Company Overview:

Romtec Utilities designs, engineers, manufactures, supplies, and constructs pump and lift station systems, booster pump stations, and many types of water collection and conveyance systems nationwide. Romtec Utilities works with private & public owners, residential & commercial developments, contractors, and engineers. We offer expertise in structural, mechanical, electrical, and communications systems for every system that we provide.

Mission Statement:

It is the Mission of Romtec Utilities, Inc. to design and supply a wide range of pumping systems for public and private customers worldwide.

We believe that water infrastructure is a vital component of global development, and we are committed to providing reliable and responsibly configured pumping systems for a wide variety of applications.

Wastewater Lift Stations

Common Applications: Municipal Sewer
Residential Development
Commercial Development
Industrial Wastewater

*Sanitary Sewer Lift Stations
Septic Replacement
Lift Station Replacement
Low-Flow to Super High-Flow*

Sewer Control Buildings

Complete System Design

System Commissioning & Testing

"In the Berm" System Design

Low-Cost Configurations

High-Flow Pumping Systems

Stormwater Pump Stations

Common Applications:

Pump Stormwater Runoff

Empty Detention Ponds

Pump to Discharge

Commercial Parking Runoff

Flood Control Pumping

Stormwater Collection/Retention

Pump Oily Water

"First Flush" Pumping

Pumping Skids

Common Applications:

Pump/Lift Station Retrofit

Pressure System Booster

Process Water Pumping

Glycol Pumping

Irrigation Pond Pumping

Truck-Mounted Systems

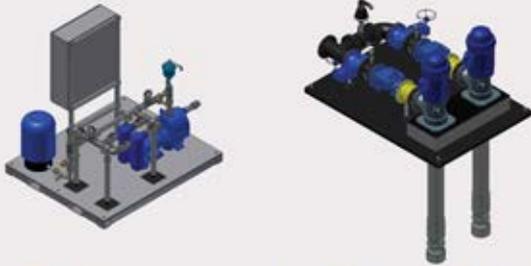

Oily Water Pumping

Unique Water Chemistry

Self-Priming Pumps

Skid Design Expertise

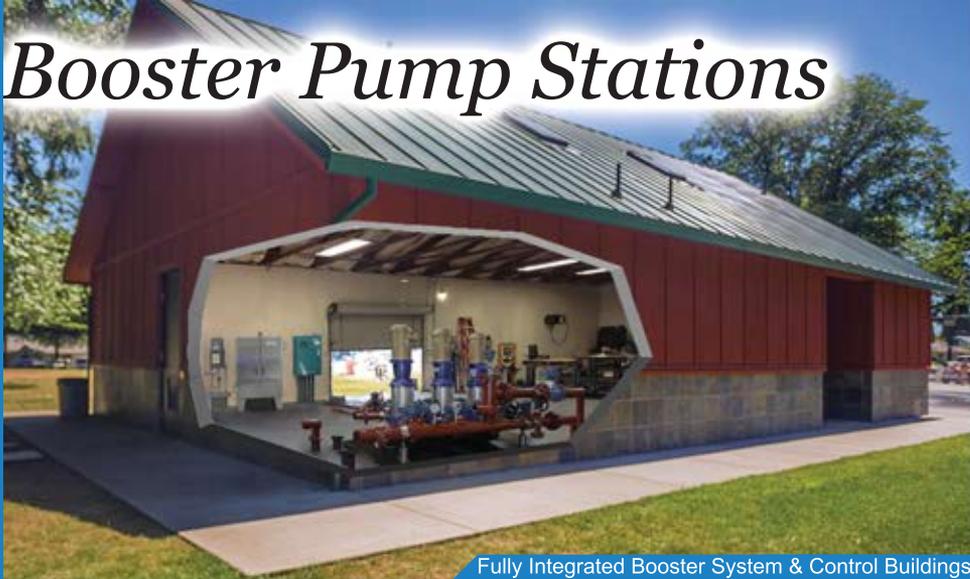

Outdoor Heat Tracing

Pressure Boosting Skids

Booster Pump Stations

Fully Integrated Booster System & Control Buildings

Interior System Configuration

Custom Building Designs

Large & Small Systems

Common Booster Applications:

Boost Potable Water Pressure

Apartment Pressure Boosting

Fire Suppression Systems

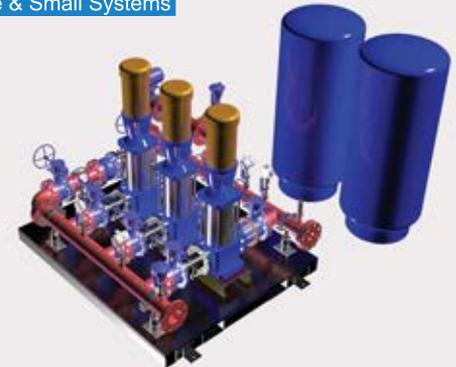

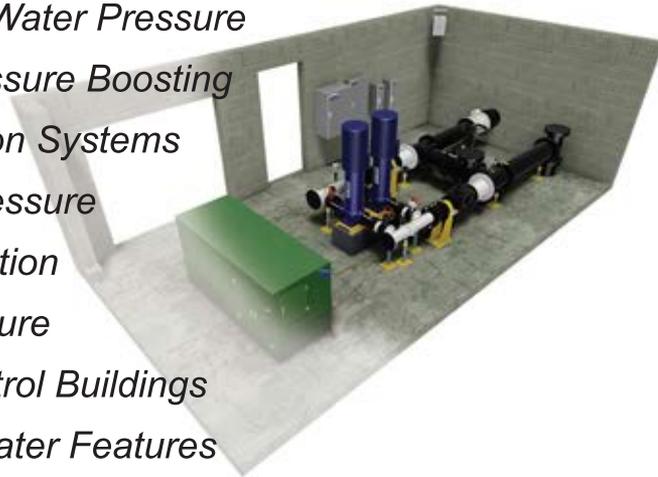

Boost Hotel Pressure

SCADA Integration

Irrigation Pressure

Integrated Control Buildings

Pressure for Water Features

Industrial Pump Stations

Power Generating Stations

Oil & Gas Plants

Specialized Design

Common Applications

Process Water Pumping

Oily Water Pumping

Hot Water Pumping

Glycol Pumping

Water Reuse Pumping

Industrial Runoff

Caustic Water Pumping

Unique/Hazardous Water

Chemical Manufacturing

Industrial Process Water

Clean Water & Turbine Pump Stations

Large Irrigation Retrofits

New & Existing Wells

Water Supply Controls

Common Applications:

Potable Water Pumping
Pumping for Irrigation
Pumping Condensate
High-Head Pumping

Deep Well Pumping
Maintaining Pressure
Pump From Treatment
Pump to Distribution

Pump Station Repair & Retrofit

Common Applications:

Wet Well Rehabilitation

Top Slab & Hatch Replacement

Increase Pumping Capacity

Add a Meter Vault

Control Panel Repair

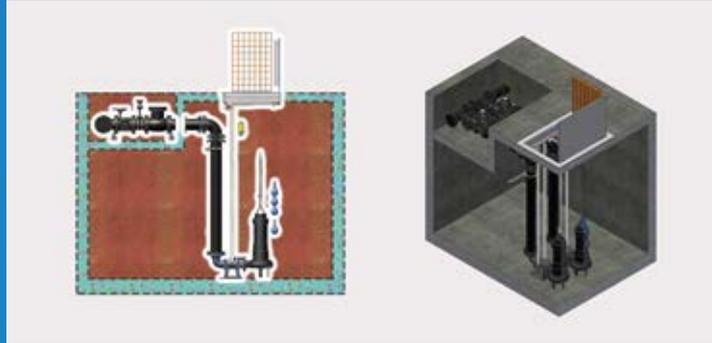

Upgrade Control Panel

Upgrade Communications

Add A Valve Vault

Site-Specific Retrofit Solutions

Project Specific Design & Manufacturing

Top Slab & Hatch Replacements

Prefabricated Vault Assemblies:

Romtec Utilities designs, manufactures, and supplies vault assemblies for a wide-range of applications. Our vault structures can be fabricated in precast concrete, steel, and fiberglass and can include any required interior or exterior coating or lining. Our vaults can also include hatches rated for pedestrian traffic all the way to aircraft traffic. Romtec Utilities can provide electrical specifications to integrate new components with your existing controls.

Meter Vaults

Grinder Vaults

Valve Vaults

On-Site Services & Documentation:

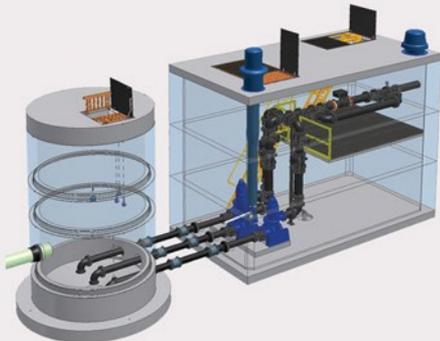

*Pump Station
Commissioning
& Testing*

*Training with
O & M Manual*

*Complete System
1-Year
Warranty*
